**DETAILED ACTION**

1. The Amendment filed on 9/13/2006 has been entered.
2. The drawings were received on 9/13/06. These drawings are accepted.

***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/13/2006 has been entered.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-3 and 6-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1 and 16 call for the cutting inserts to be arranged entirely within the end faces of the second arms respectively, yet it is not clear how this is so in comparison with

Art Unit: 3724

the Figures. For example, Figs. 2-3 show the inserts (24, 25) protruding axially out from the end of arms (10, 11), axial in the axis direction of the bolt being cut. Due to this protrusion, how is this depiction considered “entirely with the end faces” as required of the claims?

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-3 and 6-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. In claim 1, the “wherein” clause referring to the arrangement of the cutting inserts is not clearly understood to the extent that it appears to be inconsistent to that shown in the Figures. How is the depiction of the inserts (24, 25) in Figs. 2-3 construed as being “entirely within the end faces”? Substantially the same applies to claim 16.

### ***Response to Arguments***

8. Applicant's arguments with respect to claims 1-3 and 6-16 have been considered but are moot in view of the new ground(s) of rejection.

It is respectfully requested that Applicant clarify the above issues via an amendment as it appears to be subject matter that may be given favorable consideration depending on how the claims are amended.
